Aalayam Selveer Foundation Help 2 Schools Program:

Scope of the program:

Government schools play a pivotal role in shaping the educational landscape of the nation. The most commendable aspect of government schools is their commitment to inclusivity. They welcome students from various socio-economic backgrounds, ensuring that education remains accessible to all, regardless of their financial status. This inclusivity not only promotes diversity but also strengthens the social fabric of our nation.

Despite their noble mission, government schools often grapple with inadequate basic amenities such as clean drinking water, non-availability of study bench, outdated or non-availability of lab equipment, non-availability of ceiling fans, tube lights and inadequate sanitation facilities can hinder the overall learning experience for the students.

Aalayam Selveer Foundation focuses on enhancing the quality of learning experience in the government schools by sponsoring projects in creating basic amenities and elevating the standards of government schools across Tamil Nadu.
